seca 803

## Digital flat scale with high-quality two-component rubber surface

### Start weighing medically

Go ahead, pick up our starter scale and take a close look. You'll be impressed by its classic design and its surface gleaming with high-quality materials. The high-quality rubber coating consists of a special combination of two components which lends softness and solidity. The material can stand up to all commercially available cleaning and disinfecting products

Net weight	3.3 lbs / 1.5 kg
Power supply	Batteries
Functions	Auto-HOLD, Tap-on automatic switch-on, Automatic switch-off, lbs/kg switch-over

### Sturdy design for precise results

Whether black or white, for professional or private use, this seca starter scale satisfies the highest demands for private use and anyone who appreciates high-quality workmanship. The seca 803 has its strengths on the outside and on the inside. Underneath the weighing platform you'll see longitudinal and cross braces set one centimeter apart, giving the scale unparalleled stability.

### Lightening the load

Thanks to its low tare weight of only 3 lbs and the handle built on the back, the scale is easy to carry and makes it suitable for users on the move. Viewing the measurements is just as easy from the unconventionally large display with 1.1 inch-high figure. No corners are cut with the seca 803.
