

# seca marina 817

The high art of  
the low column

- Stable construction for users up to 396 lbs.
- Sturdy glass surface for maximum slip resistance.
- Two additional steel elements for stable column attachment.
- Step-off function for weighing without switching on scales.
- Large LCD figures for easy reading.
- More than 170 years of experience for maximum precision.

## seca marina 817:

This is how shape is always kept.

**T**ake a close look: a stable glass platform for users weighing up to 369 lbs and an elevated display. Simply nothing is too heavy for this scale that always maintains its elegant shape.

This is how high flat can be.

A low, elegant column and slim flat scale. Flat and yet not flat: a high level of safety provided by 3.7-inches-thick safety glass plate, a display which also serves as a handle and 1.1 inch LCD figure. All this makes the seca marina 817 precisely the right scale for users with high requirements: for their health, their body and their scale.

This is how tough gentle can be.

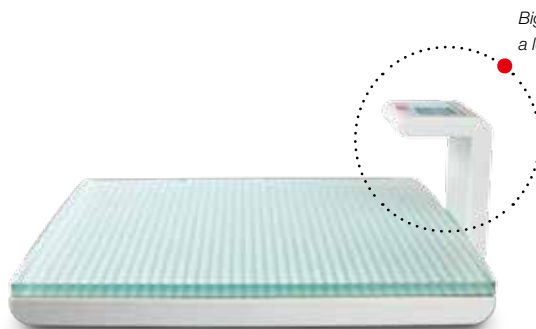

The extremely flat base is not only uniquely elegant and robust, but is also made from a particularly robust ABS plastic (acrylonitrile-butadiene-styrene) which withstands impacts, shocks and all commercially available cleaning and disinfecting products. But user's feet do not have to be shock-resistant because the edges of the base and weighing platform are gently rounded.

This is how safe glass can be.

It is possible to slip off glass, particularly with wet feet. Not so with the seca marina 817: thanks to special furnace varnishing which puts a groove structure right across the glass plate. This guarantees a safe foothold and maximum protection against slipping. You see, a scale from seca is a safe bet that goes beyond precision during weighing.

*Non-slip groove structure on the glass plate.*

*Big display on a low column.*

### Technical data

- Capacity: 396 lbs / 180 kg
- Division: 0.2 lbs / 100 g
- Dimensions scale (WxHxD):  
13.3 x 3.7 x 13.7" / 338 x 95 x 349 mm
- Weight: 7.7 lbs / 3.5 kg
- Functions: auto-HOLD, step-off, lbs/kg switch-over, tip-on automatic switch-on, automatic switch-off
- Power supply: batteries
- Parts to be delivered:  
4 AAA batteries,  
4 extension feet for carpets
