seca 211:

The measuring tape for daily use.

Our experts are constantly striving to make your routine work as simple as possible. That's why seca now offers the environmentally friendly and high-quality disposable measuring tape seca 211 with a practical wall dispenser for improved hygienic conditions. Now you have the desired measuring tape at hand when you need it. The small, space-saving wall dispenser is easy to install and to refill.

Always at hand thanks to the wall dispenser.

The seca 211 is available when needed. One hundred measuring tapes fit into this small wall dispenser that releases them one at a time. The dispenser can be mounted easily anywhere. Refilling is also a simple task.

Optimum handling.

The seca 211 has a reading aid with highly legible measurement points for precise results. Thanks to the carefully chosen weight of the paper, the measuring tape is strong enough to do the job and light enough to tear easily from the wall dispenser. It's an environmentally friendly solution that can be recycled.

Hygienic one-time use.

The disposable measuring tape seca 211 fulfills demanding medical hygiene standards. One-time use of the stable measuring tapes to prevent cross infection.

Simple refilling of up to 100 measuring tapes.

Highly legible markings allow easy and precise reading of results.
